Work Experience

Coding Bootcamp at UT Austin, Austin, TX
Full Stack Web Developer, October 2016 to Present

- Built full stack websites on a weekly basis, often implementing technologies beyond the requirements
- Tutored classmates who had difficulty understanding concepts such as building server requests and responses
- Designated project tasks to teammates based on their strengths, improving overall project quality

Sno Worries, Destin, FL
Co-Owner, May 2016 to Sept. 2016

- Conducted and implemented customer feedback to improve products and service
- Attracted new customers by building social media presence through Facebook and Instagram

Dental Specialists of Westchase, Houston, TX
Dental Assistant, May 2015 to August2015

- Established rapport with patients, which led to increased patient satisfaction
- Prepared rooms for procedures ahead of time, improving productivity
